ABI Waiver hearing

RE: 10:30 AM. HEARING FOR ABI WAIVER

Please take a stand against the request for a new ABI Waiver II. Please work with us to make good changes to the current waiver. Do not vote for a waiver that rolls over the top of brain injured survivors that have waited for their turn to come home. DSS is acting in an immoral and manipulative manner by proposing that DMAS individuals come on to an Acquired Brain Injury. This proposal may in fact save DSS money, but it will mean a huge decrease in the quality of the care the individuals on either waiver will be able to access. This new waiver is such a huge half truth (WHOLE LIE) that I could not possibly support any legislator that would have the lack of morality to vote for this new waiver.

Where are the people standing up in support of this new waiver? Very simple question. Should make your vote very clear?

Sylvia Stillwell for our brain injured survivor
Joshua Stillwell (who has thrived at home under ABI Waiver I)
